Double-headed wall luminaire of the SITRA WALL series is made from aluminium and structured glass covering the light outlet. Rated IP44, it is suitable for outdoor use. Thanks to the position of the two installed lampholders, the fitting creates two equal but oppositely arranged light beams (UP/DOWN). Available in different colour versions, the electrical connection is made directly to 230V mains supply. The SITRA WALL series further includes single-headed wall luminaires making it universally applicable. This luminaire is compatible with bulbs of the energy classes: B - A++
